OBJECTIVE

To secure an innovative role in an established company and further develop my skills in IT.

SKILLS

I specialize in creating powerful, responsive website front ends using tools like:

- HTML
- CSS
- Bootstrap
- And JavaScript

I also have over 3 years of experience working with Python in fields such as:

- Finance
- API Development
- Data Processing
- And Blockchain

My other skills include:

- Microsoft Office (Word, Powerpoint, Excel, and Access)
- Radio communications
- Computer Hardware
- Computer-Aided Design
- And Writing

PERSONAL PROJECTS

FULLY AUTONOMOUS TRADING SYSTEM
Created a Python framework for constructing fully autonomous FOREX, futures, crypto, and stock trading systems. It consists of tools for programmatic data retrieval, data manipulation and technical indicators, trade execution, and includes a suite of back testing utilities.

EDUCATION

ASSOCIATES DEGREE • 2021-2023 • HAWAII COMMUNITY COLLEGE
Studied web and software development, computer networking, and other IT-related fields. Maintained a 4.00 GPA and received the Dean's List award for the duration of my studies. Was invited to join 2 honor societies.

HIGH SCHOOL DIPLOMA • 2019-2021 • HAWAII ACADEMY OF ARTS AND SCIENCE
Graduated **2 years early**. Maintained a **4.15 GPA** whilst concurrently taking **college courses**.

VOLUNTEER EXPERIENCE

East Hawaii Farm to Car (≈60hrs.)
Performed food distribution duties to connect local farmers to their community through a USDA-sponsored program.
American Red Cross (≈15hrs.)
Participated in amateur radio communication exercises to simulate disaster conditions.
